## ASKS CHURCH'S AID FOR HIGHER WAGES

Charles F. Nesbit on Men and Religion Move.

Charging that churches which render aid to needy families by the payment of rent and purchase of supplies tend to perpetuate low wages and cheap labor, Charles F. Nesbit, chairman of the Social Service Committee of the Men and Religion Forward Movement, declared in a conference of that committee at the Eastern Presbyterian Church yesterday evening that if the members of churches would investigate the reasons for the appeals for help, and demand the payment of living wages, the number of dependent families would be reduced to a minimum. "The churches are in large measure responsible for keeping wages down," Mr. Nesbit said. "The head of a family working for a large corporation is paid a salary which is not sufficient to pay living expenses, and he has to turn somewhere for help. He applies to the church, and the church, out of its free funds, pays his rent, or buys his coal. What that church should do is to force the employer to pay a decent, living wage. As long as the corporation or firm knows that its employees who need help can get it from the church, such a concern will continue to use the church for the benefit of its own pocket."

## CATARRH OF THE STOMACH

A Pleasant, Simple, But Safe and Effective Cure For It.

COSTS NOTHING TO TRY.

Catarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloated stomach, indigestion, accompanied sometimes with sour or watery risings, a formation of gases, causing pressure and flatulence, headache, nervousness, and a general played out feeling. There is often a foul taste in the mouth, coated tongue, and if the interior of the stomach is diseased, it would show a slimy, inflamed condition. The cure of this common and obstinate disease is to be found in a treatment which causes the food to be properly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do, and when normal digestion is restored, the catarrhal condition will have disappeared.

According to Dr. Harrison, the safest and best treatment is to use after meals a small tablet, composed of Dittane, Aspartic Peptin, a little Nux. Golden Seal, and fruit. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets and are not being a patent medicine, but are used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals. The plan of dieting is simply another name for starvation, and the use of prepared foods and new-fangled breakfast foods simply makes matters worse, as any dyspeptic who has tried them knows. As Dr. Bennett says, the only reason why people get dyspepsia is because everybody who is troubled in any way with poor digestion is told that a medicine is advertised or is sold in drug stores, and that it will cure him. The tablets have cured more people of catarrh of the stomach, indigestion, heartburn, and nervous prostration than all the patent medicines and doctors' prescriptions for stomach trouble combined. Stuart's Dyspepsia Tablets is the safest preparation as well as the simplest and most convenient remedy for any form of indigestion, catarrh of the stomach, biliousness, sour stomach, heartburn, and bloating after meals. For sale at all druggists at 50c a box. Send your name and address to-day for a free trial package and see for yourself. Address F. A. Stuart Co., 120 Stuart Bldg., Marshall, Mich.
